

NO change to media ownership rules!

Please accept this comment on the Biennial Review of the FCC's broadcastmedia ownership rules, Docket No. 02-277. In promoting its supposed goals of fair competition, diversity and local voice in today's media market, I strongly believe that the FCC should retain all of the current media ownership rules now in question. These rules serve the public interest by limiting the market power of the huge, dominant companies and players in the broadcast industry.

I do not believe that the studies commissioned by the FCC even attempt to demonstrate the negative effects that media deregulation and consolidation have had on the diversity of our media. While there may indeed be more sources of media than ever before, the spectrum of views presented has been severely limited.

The right to conduct an informed debate and discussion of current events is part of the founding philosophy of our nation. Our forefathers believed that democracy was renewed in the marketplace of diverse ideas. If the FCC allows our media outlets to merge and consolidate further, our ability to have an open, informed discussion from a wide variety of viewpoints will be severely compromised.

I urge the FCC to preserve the public interest by keeping the media ownership rules in question intact.

Also, I support the FCC's plan to hold a public hearing on this matter in Richmond, VA in February of 2003. I strongly encourage the Commission to hold similar hearings in all parts of the country and solicit the widest possible participation from the public. The rarified, lawyerly atmosphere of an FCC rulemaking is not an appropriate decision-making venue when questions as profound as the freedom of our media are at stake. I encourage the Commissioners to come out and meet some of the people who do not have a financial interest in this issue, but a social interest.

With the serious impact these rule changes will have on our democracy, it is important that the Commission take the time to review these issues more thoroughly and allow the American people to have a meaningful say in the process.

Sincerely,  
K. Kvine
